

Digital Learning Day's Project 24 Initiative

24 Months: Urgent Demands on Districts

- Implement college and career-ready standards for all students;
- Utilize online assessments to gauge comprehension and learning;
- Integrate new teacher evaluations;
- Deal with shrinking budgets; and
- Address the effects of the ESEA waivers are evidenced.

Team of Experts

Project 24 addresses the needs of Superintendents, CTOs, school board members and other district officials, school principals, teachers and librarians by identifying a broad array of experts from a variety of districts that have proven, successful track records in the following areas:

Project 24 is an urgent call to action with comprehensive district-level planning tools offering a one-stop-shop of expert advice, creative ideas, and tangible suggestions for the effective use of technology to achieve the goal of “career and college readiness” for all students.

Tools & Resources

- Self-Assessment of Needs
- Checklists, Recommendations, and Research
- Sample Documents, Videos and References

Collaboration & Input Opportunities

- Provide your perspective on the Project 24 framework (left).
- Contribute your organization's existing efforts in one or more outreach area (above).
- Write a blog and/or participate in a live chat about your experience with districts implementing digital learning.
- Provide ideas on practitioners to highlight in showcases, webinars and chats.
- Urge districts to pledge to participate in Project 24.
- Collaborate and offer your suggestions and input during consistent check-ins.
- Work with the Alliance to share information through your activities including meetings, conferences, newsletters, and briefings.
